RE: GE Elefun – Adapted toy donations

This letter is to express my deepest appreciation for Mr. Richard Martinelli and the volunteers of the GE Elefun program that adapts toys for children with special needs. Our staff including speech therapists, a music therapist, occupational therapists and physical therapists have been most appreciative of these donations and use these toys during their sessions. The children in our program who have motor needs often have difficulty playing with toys and manipulating the pieces. The adapted toys have allowed them to be able to play just like their peers. It has enhanced their play skills and interactions with others in the classroom.

It is my hope that our program along with others can continue to benefit from the great work the volunteers of the GE Elefun program are doing in adapting toys for children with special needs.

Sincerely,

Susan M. Nash, M.S. CCC-SLP
Supervisor of Speech and Language
