

Love your job? Share it with a kid in Schenectady.

Help our young people reach for the stars by becoming a Junior Achievement volunteer. You can make a difference in young peoples' lives by helping them see the relationship between education and success.

What's Involved:

- 5 class visits of 30-45 minutes working with students in grades K-5
- All hands-on materials and training provided
- No special knowledge of economics, just a desire to make a difference
- Programs in either fall or spring, with flexible scheduling
- Ongoing support from Junior Achievement and the classroom teacher

The Need:

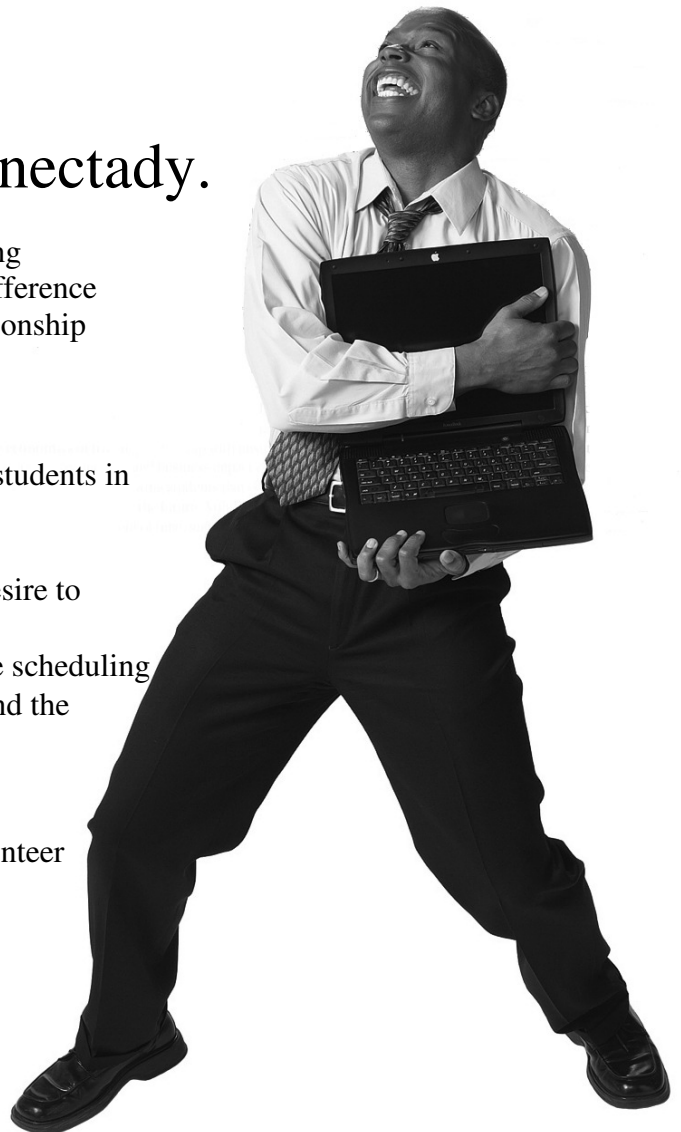

Whatever your job is, Junior Achievement has a volunteer opportunity for you. If you would like to help a first grader understand how a family works, help a second grader learn about our community or help a fifth grader understand national and global connections then JA can use your help.
